Geothermal Power Utility Loan

DATED: June 26, 2026

BETWEEN: Taranis Energy Systems (the "Borrower"), and **Helios Power & Infrastructure Fund** (the "Lender").

ARTICLE I: UTILITY DEBT STRUCTURE

Section 1.01. Credit Commitment. Lender extends a senior credit line of **1,100,000,000 ECU** to fund deep bedrock drilling, geothermal siphons, and local electric grid arrays.

ARTICLE II: SEISMIC INTEGRITY ESCROWS

Section 2.01. Geothermal Turbine Reserves. Borrower must fund a CapEx reserve account with a minimum balance of 80,000,000 ECU to cover repairs or replacements of core turbine turbines in the event of unforeseen local volcanic eruptions or major tectonic shifts.
